

Our Partner Organisations

Building successful careers in the post-pandemic era, sponsored by Vision Express

It's now been over three decades since we opened the very first Vision Express store in Gateshead's MetroCentre.

We've come a very long way since then. But our guiding principle remains the same. And that's to provide an unparalleled level of customer service. A truly individual service, delivered in a professional yet welcoming environment.

Through organic growth and acquisition there are now 575 Vision Express stores across the UK and Ireland – from big city locations to local high street stores. Following the acquisition of Tesco Opticians in 2017, you'll now find us in larger Tesco stores too.
